BRIEF ABSTRACT OF LETTER.

"The Malnad Improvement officer suggests that the Sanitary Assistant given to him might be replaced by a Subordinate having engineering qualification

NOTES AND ORDERS.

On the recommendation of the Sanitary Commissioner, the District Sanitary officer, Kadur District was also the Special Sanitary officer for the Malnad portions of the Hassan district also (Govt. Pro. No. 8770-5 Sm 91-13-2 dy 24.3.14)

This arrangement was modified in Govt. Pro. No. 1929-39 Med 24-15

General and Revenue Secretariat.

Loan File No. 60 of 1916.

Serial No.

Dated the 2nd August 16 and the Assistant Surgeon in charge of the L.F. Dispensary at Lakhsham was appointed as Special Sanitary officer for the Malwan portion of the Hassan district.

Submitted for orders.

9.9.16

13/9

2. The main work of the Malwan Improvement Committee is the improvement of the Sanitation of the Malwan — The San[t] Engineering work connected therewith viz clearance of Lantana, opening out roads, sinking of wells does not of such a difficult nature as to require a Dpl. Engineering Officer. —

3. If appd. the H.F. Officer Hassan may be requested to place the matter before the Committee & submit their resolution to Govt thro' the Dist[r]

32 The items of engineering works undertaken by the Committees are, admittedly, shifting of villages, sinking of wells, construction of model houses - all of which indicate the need for a training in Sanitation quite as much as one in Engineering. The training in minor Sanitary Engineering at present given in the Public Health Institute is at least equal in standard to that given in the King Institute at Madras so that I fail to see wherein lies the need for changing the present staff or for creating additional appointments.

and Hassan Districts as resolved by the respective Committees.

The Hassan District Committee proposes to substitute 2 overseers and 2 Suboverseers in place of one overseer & four Subovers. The Kadur District Committee proposes to have 3 overseers and 2 Subovers in lieu of 2 overseers & 5 Subovers. no such representation has been received from the Shimoga District Committee.

Submitted for orders

20.7.17

38 The present proposal is from the Kadur and Hassan Dts. for a readjustment of the Executive staff of overseers and Subovers sanctioned to the two districts under the M. I. Scheme.

The reasons urged for this change are,

1) Important and costly works are undertaken under the scheme, which require to be supervised by persons trained in Engineering and having more Experience in this branch of work than in Sanitation

(2) The readjustment will not involve any extra cost to govt.

Kind reference is invited to the

NOTE—Contn. sheet.

General and Revenue Secretariat. | Gen File No. 40 of 1916-17 | 12

Serial No.

12

proposition statement submitted. It points out the nature of the readjustment. From this it will be seen that in the case of Hassan Dt, there will be one Subordinate (Sabordinate) the less and in that of Kadur two Subordinates, but what is lost in number is made up by efficiency. From para 4 of the Spl. Officer's letter, it is to be noted that none of the Subordinates of Dan? Qualifications came up to expectation for one reason or another. This is a weighty argument in favour of the proposal.

The establishment under the Scheme being of a temporary kind, it is perhaps necessary to allow some latitude to the District Officers to propose alterations which become necessary as Experience is gained in the working of the the Scheme, so long as the allotment under the head of Establishment is not Exceeded

The execution of important improvement works is an important item under the Scheme and from this view also the proposal deserves a favourable consideration

NOTES OF THE DEWAN'S TOUR.

HASSAN DISTRICT.

Matters to be dealt with direct by Government.

At a meeting of the officers of the district, the following wants and difficulties were brought to my notice:—

(1) It was stated that officers were put to great inconvenience and expense for want of a suitable library of reference books in the district. The existing rules regarding the supply of books by Government may be examined by the General Secretariat to see whether it is possible to meet this request.

(2) The Executive Engineer complained that transfers of subordinate officers in the Public Works Department were too frequent and that as a rule the Executive Engineer was not consulted in respect of such transfers.

The Executive Engineer also represented that the Chief Engineer had not taken action on several cases of irregularities reported by him.

The Secretary, Public Works Department, will be good enough to submit a note giving a list of cases so reported and how they were dealt with.

(3) The District Superintendent of Police stated that no new police buildings had been constructed in the district for three years.

(4) The Malnad Improvement officer suggested that the Sanitary Assistant given to him might be replaced by a subordinate having engineering qualifications.

The last two questions may be considered in the General Secretariat.

Chikmagalur:

To San 40-16-3

D.M.Narasinga Rao, Esq., B.A., B.L.,

Secretary to the Government of Mysore,

General Department, Bangalore:

Sir,

Adverting to your docket No.2125/San.40-16-2, dated 20th September 1916, calling for the resolution of the Committee together with the opinion of the Deputy Commissioner, regarding the replacement of the Sanitary Assistant by a Subordinate having engineering qualifications, I have the honor to submit herewith, a copy of Resolution No.XI of the Proceedings of the Hassan District Malnad Improvement Committee meeting held on 31st October 1916 in the --- matter. It was explained to the Committee that my representation to the Dewan Sahib referred to in the Dewan's Tour Notes was to the effect that greater knowledge of engineering and carrying out of works was more necessary than the present Sub-Overseers who had undergone training in the Sanitary School possessed.

2. In these circumstances I request that Government be pleased to order the employment of two at least of the four Sub-Overseers sanctioned for the Hassan District who have been trained in the Engineering School.

I have the honor to be,

Sir,

Your most obedient servant,

R. Ramaswamy Rao

Submits resolution of the Hassan Dist M. I. Committee regarding the extract of para 4 of the Darwaish Notes of the Darwaish Tour in the Hassan Dist in April 1916 in the matter of replacement of Sanitary Assistant to the Special Rev: Officer by a Subordinate having Engineering qualifications and solicits the sanction of Govt to employ at least two out of 4 Subordinate Engineers Sanctioned to the Hassan Dist, persons who have enquired into the matter.

Proceedings of the Second Meeting in 1916-17 of the Hassan Committee, Malnad Improvement Scheme.held on 31st October 1916.

---&---

x x x x

XI. Read docket No.2125/San.40-16-2,dated 25th September 1916 from the General Secretary to Government to the Special Revenue Officer, calling for the resolution of the Committee,together with the opinion of the Deputy Commissioner thereon, regarding the replacement of the Sanitary Assistant by a subordinate -- having engineering qualifications. (Extract of para 4 from the Notes of Dewan's Tour in the Hassan District during April 1916.)

Resolution: The Special Revenue Officer stated that he submitted to the Dewan in the course of the Dewan's Conference at Hassan that he wanted subordinates trained in engineering for his Executive staff instead of the present subordinate staff called Sub-Overseers who only had some training in Sanitary work while works carried on under the Scheme required engineering experience

Resolved that this may be pointed out to Government and that sanction of Government be obtained for employing two Sub-Overseers at least who have some engineering experience out of the four sub-overseers sanctioned for this District.

In this connection the Committee suggest that at the Sanitary Training Class, training in engineering may be given to a greater extent to the students that is done now as in the King's Institute at Madras.

IV. Read Memo. No.3771/San.40-16, dated 11th December 1916, from the General Secretary to Government, calling for the resolution of the Committee with the opinion of the Deputy Commissioner thereon, regarding the replacement of the Sub.Overseers of the Scheme who have had mere Sanitary training by persons trained in the Mysore Government Engineering School.

Resolution: Resolved that the Committee re-affirm their opinion contained in resolution No.II of the Proceedings of the meeting held on 28th July 1915 in the matter and that Government be approached to sanction the appointment of at least two Sub Overseers with experience in Engineering for the District.

II. Read letter No.9141/San.45-14-6, dated 21st May 1915, from the Secretary to Government, General & Revenue Departments, calling for the opinion of the Committee, ~~in~~ in re: the employment of candidates trained in the Govt: Mysore Engineering School as Sub Overseers under the Scheme.

Resolution: Resolved that the Committee have no objection for the entertainment of candidates trained in the Mysore Government Engineering School as Sub Overseers under the Scheme and in fact the Committee prefer these candidates to Assistant Sanitary Inspectors whose imperfect knowledge in estimating and carrying out well and other works has necessitated estimates being revised frequently.

Sir,

Adverting to your No. 3770 Sany. 40-16 dated 11th December 1916 forwarding for consideration by the Malnad Improvement Committee of Shimoga resolution of the Hassan District Committee regarding the re-placement of Sub-Overseers by persons, who have been trained in the Engineering School, I have the honor to state that the subject was placed before the Malnad Improvement Committee of Shimoga at its meeting held on the 19th January 1917 and the following resolution was passed by that body.

" The committee agree in the view of the committee of the Hassan District that people trained in sanitary training class should be given a higher training in Engineering also."

2. The several items of work undertaken under the Malnad Improvement Scheme such as shifting of villages, sinking of wells and construction of model house etc., require both experience in sanitation and - - -

SUBJECT.

of engineering works undertaken by the Committees are admirable, shifting of villages, sinking of well (village site) construction of model houses - all of which indicate the need for a training in construction quite as much as one in Engineering and that the training in manual skill given at present given in the public Schools Institute is at least equal in standard to that given in the King Institute at Madras and as such there is no necessity for changing the present steps.

2. I am to request you to explain in detail what use the Committees are making of the overseers employed under them and how even with their help the Committees find it difficult to get estimates worked prepared and works satisfactorily carried out.

From

R. Nanaswamy Rao, Esquire,
Special Revenue Officer, M.I.Scheme,
M.I.Scheme, Kadur and Hassan Districts,
Chikmagalur:

To

D.M.Narasinga Rao, Esq., B.A., B.L.,
Secretary to the Government of Mysore,
General Department, Bangalore:

Sir,.

Adverting to your letter No.7117/San.40-16-Sl.8, dated 10th May 1917, regarding the re-placing of the Sub-oversee.. trained in the Sanitary Class by persons trained in Engineering I have the honor to submit, herewith, copies of resolutions No. VIII of the Proceedings of the sixth meetings in 1916-17 of the Kadur and Hassan District M.I.Committees, held on 23rd May 1917 and 23rd June 1917 respectively in the matter, together with a proposition statement in respect of the proposed revision of the scale of establishment of the Executive Staff as recommended by the said Committees in the above resolutions.

2. As regards para 2 of your letter under advertence, asking me to explain in detail what use the M.I.Committees of - Hassan and Kadur are making of the Overseers employed under them and how even with their help, it is found difficult to get estimates properly prepared, I beg to state that the sub-ordinate agency employed in the Hassan and Kadur Districts are at present as per margin. The Overseer in the Hassan District and the two Overseers in the Kadur District are employed in addition to the ordinary works of sanitation of villages, in the tracing of

Hassan District:

One Overseer drafted from D.P.W. against the sanctioned strength of one Overseer and four Sub-overseers.

Kadur District:

Two Overseers drafted from D.P.W. and Special Overseer under the old scale (40--15) drafted from the Revenue Department, against the sanctioned strength of two Overseers and five Sub-overseers.

GEN. & REV. D...
16 JUL 1917

General No. 3.
No. 3

Enclosure No. 5.

Submits proposals for the
revision of the scale of establish-
ment of the executive staff under
the M.I. Scheme in the Kadur & Hassan
Districts and solicits sanction of
Government thereto

laying the same out in a hilly country, constructing bridges costing between one to two thousand rupees, preparing projects estimated to cost between one to three thousand rupees for -- supplying water in villages by leading water from the neighbouring kattes by means of pipes and executing them in addition to the sinking of wells, constructing model houses and shifting of villages.

3. It may be pointed out here that sinking wells in the Malnad requires larger experience in estimating and construction than is found in the ordinary run of Sanitary Inspectors, especially as the soil in almost all the Taluks in the Malnad is very soft and water is not generally tapped till the earth-work is done to a depth of 50 to 60 ft. and that the men who sink these wells are invariably South Canara or Malabar people who have considerable experience in the work and even these men require professional help and guidance in carrying out the works. In fact, it is due to this difficulty in successful well-sinking that private houses and several villages have no wells whatever and but for the experience of the Overseers gained in the D.P.W. so many well-works could not have been carried out in the Hassan and Kadur Malnads.

4. In the Hassan District, three sub-overseers of Sanitary qualifications were employed during the past two years, one after another, in succession, but none of them came up to expectation for one reason or other. Although they all had sufficient training in Sanitation, the nature of the work -- undertaken by the M.I.Committees was such as required more -- experience in Engineering than in Sanitation.

5. It is in consideration of the above difficulties, both the District M.I.Committees have decided to have the scale of the Executive Staff revised as per proposal contained in the enclosed statement which does not involve any additional charge

6. In these circumstances, I request that Government be

pleased to consider the proposal of the Committees favourably and to pass early orders sanctioning the said proposal.

I have the honor to be,

Sir,

Your most obedient servant,

Special Revenue Officer,
M.I.S.Kadur & Hassan Dists.

VIII. Read letter No.7117/ San.40-16-Sl.8,dated 10th May 1917, from the General Secretary to Government to the Special Revenue Officer, M.I.Scheme, Hassan and Kadur Districts, intimating tha there was no necessity for changing the present staff of Sub-Overseers by replacing them with candidates trained in Engineerin

Resolution: Resolved that a reply be sent to the Secretary, explaining the difficulty that is being felt in getting the M.I. works executed by the present staff with a recommendation that the present staff of one Overseer and four Sub-Overseers be substituted by two Overseers and two Sub-overseers whereby no extra cost will be incurred.
